

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

We find it hard to find the words to express our appreciation to all of the fine people of Hamlin that found the time Saturday to come by and visit with us during our Open House. The response was greater than we had ever hoped for.

All of us here at the Herald were just overwhelmed by all of the flowers and arrangements that were sent for our opening.

Our daughter, Beth, who is a student at Texas Tech was not able to be here for the occasion and sent us a card with a note in it that expresses how our whole family feels about Hamlin. "Doesn't seem like ten years! Also, thanks for making the move to Hamlin—never regretted the choice!"

Thanks again.

We are glad to note that the Jaycees had another very successful Volleyball Tournament this past weekend.

Of all of the community-wide civic projects held in Hamlin each year this one is always our favorite because of two things. The first is that the money goes to pay for the community center that has been a real benefit to just about everyone in town. The second reason is that it involves so many people that seem to have a big time and look forward to it every year.

From the point of raising money we like the project because it makes a lot of profit for the Jaycees and their building without imposing a burden on anyone with no one paying more than \$10.

Gov. Preston Smith has launched a state-wide campaign in an effort to keep 3,700 Texans from dying needlessly in traffic accidents in Texas. The campaign is built on the theme "Drive Friendly" and is also an effort to stop 250,000 from being injured seriously and \$1 billion from being lost in accidents.

The campaign comes from the word Texas or "tejas" which is the Indian word for friendliness or friendship. While Texans have a world-wide reputation for being friendly, unfortunately, when many of our citizens get behind the wheel of an automobile, truck or motorcycle this friendly attitude seems too often to be left at home.

How do you "Drive Friendly"?

You "Drive Friendly" by operating your vehicle as courteous, sensible, responsible citizens.

You "Drive Friendly" by respecting local and state police officers who patrol our streets and highways for our benefit.

You "Drive Friendly" by being generous with your right-of-way. A less skillful driver may try to take your right-of-way. Let him have it. It's not worth dying over.

You "Drive Friendly" by keeping your vehicle in good operating condition.

You "Drive Friendly" by not driving while under the influence of alcohol or drugs, or when ill.

On the subject of safety we hear that mini-bikes are maxi-dangerous for midgets.

A local resident, whose name is being withheld because it might notify his next of kin, found out that in turning a corner on loose gravel the bike can skid. With the bike so low to the ground, when he put his foot out to hold the bike up, he found that his knee was skidding over the loose gravel instead of his foot. This caused considerable material to be removed from the knee of his trousers, the toe of his shoe and his own knee. In addition to this, a man could lose even more hide if his wife found out the truth about what happened to his good trousers. So watch those mini-bikes!

Pre-Schoolers to Attend School Either Tuesday Or Wednesday

All children who will be in the First Grade this next school year will be invited to visit school on either Tuesday, Apr. 14 or Wednesday, Apr. 15. Cards will be mailed to each child advising him the date and the day he will be

expected for re-school Visitation. Those who fail to receive a card may call the Primary Building, 576-3881, for information.

The teachers ask that each child be at school by 8:30 on the day he is to visit and that parents take their children to the Reading Center Building rather than the Primary Building. The Reading Center Building is the building between the Primary and Elementary Buildings and faces N. W. Ave. E.

The children will need to bring 40c to eat in the school cafeteria. Also it will be necessary for the parents to bring the child's birth certificate in order to register for the coming school year.

Mrs. W. W. Wallace, the school nurse, will hold a pre-school clinic at the primary cafeteria at 1:00 p.m. Tuesday, Apr. 14. Dr. E. J. Hawkins will be there for physical checks. Smallpox vaccinations will be given at this time. It is necessary that all pre-school children come to this clinic, even though their pre-school visitation day may be on Wednesday, Apr. 15. School officials say children coming to school on Wednesday may go home at 1:00 p.m.

The Parent-Teachers Association members will assist the school personnel with the registration and pre-school clinic.

Most Cancer Cases Curable If Diagnosed Early, Says Society

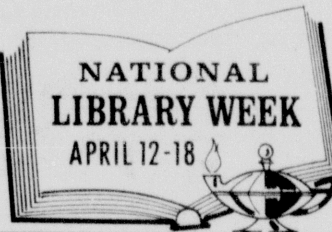

The American Cancer Society has repeatedly pointed out that cancer is no longer an automatic death sentence. Far from it. It is, in fact, one of the most curable of the major diseases.

Yet the Society also points out that more than 100,000 Americans, who might have been cured, will die of cancer this year. If their disease had been diagnosed and treated in time, chances are they would be alive and well.

Why won't they be?

Many — perhaps most — of them have doubtless heard of the need for early diagnosis and treatment. Thanks largely to the cooperation of the nation's press, the Society has been able to bring its life-saving message to the attention of a big percentage of the American people. Great numbers of people know that something should — and can — be done about cancer. They have "gotten the message."

The trouble is, too often

they don't act on it.

It is not only the annual physical checkup which is involved, of course. Knowledge of the Seven Warning Signals, and the taking of a few elementary precautions can also be life-savers. Avoidance of cigarettes and the wearing of light, protective clothing when exposed to the sun for long periods can actually prevent cancer, of the lung and skin respectively.

What is at the heart of the matter is obviously not so much a "communication gap" as an "action gap." The Society's message of sense and safety are reaching millions — but all too many of us aren't really listening. The American Cancer Society needs your support to do its job: a job it is doing magnificently well — on its part.

But the other half of the job is ours: to act on the knowledge given us. No one else can force us to. Saving our lives begins with us.

Impala '400' Sale.

You save when you buy it. You save when you drive it.

When you buy any Impala V8 model during our "400" Sale, here's how you can get two popular extras at no extra charge.

You order your Impala equipped with a Turbo Hydra-matic transmission, radio, Comfortilt steering wheel, front and rear bumper guards and white stripe tires. Items you'd probably order anyway.

Then we add our big 400-cubic-inch V8 at 265 hp that runs on regular gas, along with dual exhausts — both at no charge. (The manufacturer's suggested retail price including Federal excise tax for the regular fuel 400 V8 and dual exhausts is \$93.75.)

But that's only the beginning. Because your Chevrolet dealer is really anxious

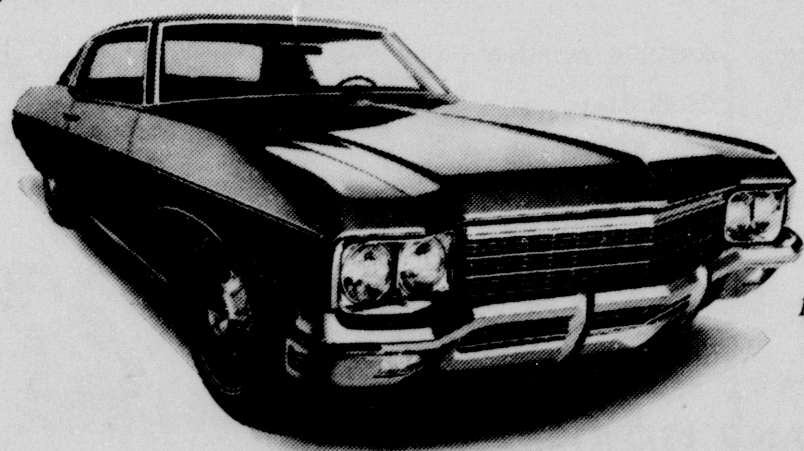

to deal these days.

And the Impala you're buying, of course, got to be America's No. 1 car, because of all the value features built right in. Features like flush-and-dry rocker panels that fight rust. Inner fenders to protect the outer fenders. Long lasting bias belted ply tires, steel guard beams in every door for added protection, an acrylic lacquer finish over its solid Body by Fisher.

All of which contributes to Impala's traditionally high resale value, too.

You're getting America's No. 1 car on sale. The car more people buy — year after year after year.

How can you beat that?

To all of the people of the Hamlin area--may we say thank you for 10 wonderful years in Hamlin.

Mr. and Mrs. Bob Craig and family
and the staff of THE HAMLIN HERALD

FROM THE FILES . . .

FORTY-FIVE YEARS AGO
 (April 10, 1925)

The Herald last week told of the house being torn down where the Hamlin Produce Co., had been doing business, but failed to say where they had secured new quarters. There was no intention of leaving the impression that this important business was quitting, for indeed Hamlin country is one of the best produce sections of West Texas and Mr. D. A. Cullum, the manager for the Produce Co. is one of the liveliest men when it comes to boosting the produce business and paying the highest prices. He has the GREEN WAREHOUSE building, over on the Orient commercial switch and in many ways has the best place he has yet occupied. The warehouse is fully eighty feet long, has a car capacity shed coop, besides the main floor. Then there is the track that comes up by the doors, making it easy to load a full car right out of the building into the car, and there is a full street in front where autos and wagons can deliver eggs and all kinds of poultry. One interesting item that the Herald will get some day, and that is the total amount of money this company paid in Hamlin for produce during the year 1924. When we remember that nearly every farm home around Hamlin, for ten or twelve miles, has a flock of producing hens and other kinds of poultry, it will not be surprising to learn that thousands of dollars to the farmers from this source. Those who have produce to sell will remember to find Mr. Cullum in his new place just a short distance southeast of Green's store and the First State Bank.

TWENTY YEARS AGO
 (April 7, 1950)

B. M. Brundage was elected as the mayor to succeed Holly Toler. Arlie Cassle and Clyde Huff were re-elected. J. B. Terrell, Jr. was elected to succeed Brundage on the council. Write-in votes were cast for W. L. Cash, John D. Turner and D. M. White. Installation of Brundage as mayor and Cassle, Huff and Terrell as councilmen is to be completed Monday night. When interviewed by Herald representatives Wednesday, Terrell expressed a desire to thank the voters publicly for this indication of their confidence in him. Brundage said that he fully recognized the honor that had been bestowed upon him and that he humbly embarks on his new civic job with

the cooperation of the citizens themselves that his administration can be a success.

TEN YEARS AGO
 (April 7, 1960)

Three members of the Hamlin Independent School District board of trustees were reelected Saturday in voting that created very little interest in the 258-square-mile district in an election conducted at the high school building. Fifty-eight votes were cast during the day-long balloting. No opposition to the three trustees standing for reelection on the ballot was registered. Eddie Jay received 52 votes. Dr. M. L. Smith tallied 57 and Bill Harbert received 58. They will serve for three years. Hold-over trustees are Fred B. Moore Jr., Richard Young, W. C. Eoff and Revis Robertson. Junior class members of the Student Council of Hamlin High School last week-end attended the annual state convention of Texas high school Student Councils at Amarillo. The convention opened Thursday and continued through Saturday. More than 1,500 students from all over the state were in attendance. Representing the 13-member Hamlin High School chapter of the Student Council at the convention were Nina Jean, Michael Wayne Bond, Ann Rabjohn and Robert Brandon. The students were accompanied by Elvin Kelly, sponsor of the local group. After only negligible voting interest manifested in last Saturday's school trustee election, citizens of Hamlin perked up and polled 230 votes in the city election Tuesday that named a mayor and five councilmen. John V. Howard Jr., who last month resigned as councilman to run for the office of mayor being relinquished by L. H. McBride was unopposed, and received 222 votes. Joe Hudspeth, who had just completed his first two-year term as a councilman, was running for the one-year unexpired term of John Howard Jr. He polled 228 votes. Of the six candidates running for the four remaining places on the City Council, elected were John D. Ferguson, who tallied 206 votes; James D. Josey, who polled 186 votes; C. L. Howard, who received 176 votes; and George E. Campbell, who got 156.

PRINTING PROCESS EXPLAINED — Mrs. John W. Cochran, left, an employee of the Hamlin Herald, explains the offset printing process to visitors during Open House Saturday. The press, in foreground, operates on the same principal but is much smaller than the newspaper press used to print the Herald and also the Aspermont Star that is produced in the Hamlin plant. Visitors are Mr. and Mrs. John H. Steele, left, and Mr. and Mrs. Raymond Scifres, right.

NEWS FROM . . .

Old Glory

BY BERNICE WHITE

The annual Spitzer Family Reunion was held last Saturday and Sunday at the Old Glory Sons of Herman Hall. Over one hundred descendants of the late Mr. and Mrs. Fredrick Spitzer of Brenham, Texas, their families and friends gathered there for the Saturday evening barbecue, and by the Sunday noon meal the crowd had grown to approximately 135 people. Many came from Brenham, Clifton, and various other points throughout the State.

When the family first started gathering for this annual affair 13 years ago, there were nine brothers and sisters. Now there are four, two brothers and two sisters. Descendants living in this area are of the family of Mrs. Fred Spitzer of Haskell and the late Mr. Spitzer. Those folks lived in the Sagerton community for many years, they farmed and reared their family there. Two of the sons of this family now live in the Old Glory community; they are Louis Spitzer and Garrett Spitzer.

The group voted to meet in Clifton for their reunion next year.

Guests in the home of Mr. and Mrs. Louis Spitzer last weekend who were here to attend the Spitzer reunion were their daughter and

Grade School tennis: Carmell Vahlenkamp, girls singles, Rosa Barrera and Lynette Meier, girls doubles; and Freddy and Manuel Barrera, boys singles.

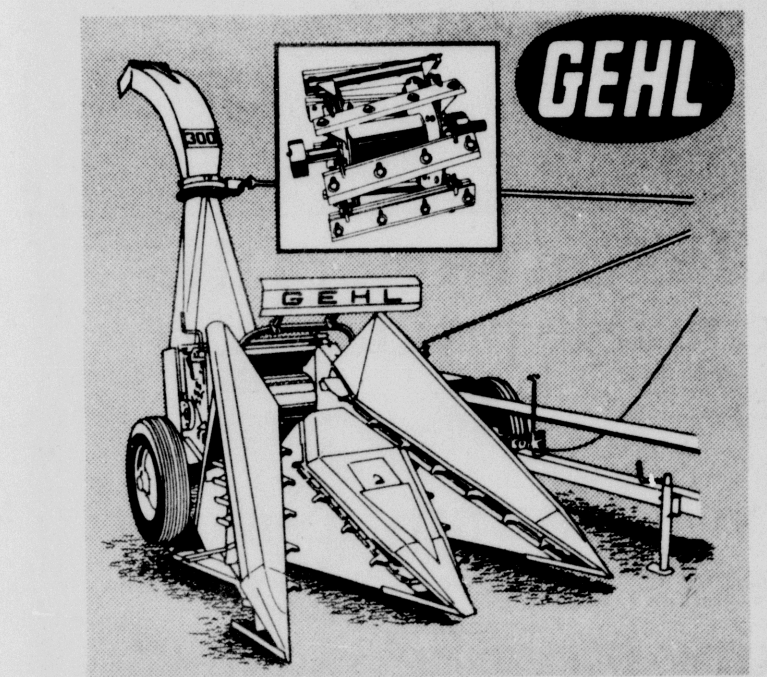

Voters in the Old Glory School District selected C. T. Pierce, incumbent, and H. L. Boles, to fill the two places on the Old Glory School Board. Mr. Boles will fill the place left vacant by Willie Baitz, who did not seek re-election. Votes cast were C. T. Pierce, 47, H. L. Boles, 41, James V. Martin, 30, and Herbert Teichelman, 25.

Mr. and Mrs. Thomas Letz and Bryan of Wichita Falls spent last weekend here visiting their parents, Mr.

Over 100 Farmers Union Leaders Attend District Meeting In Haskell

Over one hundred Farmers Union leaders representing nine Rolling Plains counties attended a District 3 meeting at the Haskell elementary school last Friday night. Willard Mullins of Haskell, President of the Haskell County Farmers Union and Mr. and Mrs. Don Nanny of Haskell served as the host committee that made the arrangements for the meeting. Neinda Philosopher Gives Some Real Hard And Concentrated Thought to the Strike Problem

Editor's note. The Neinda Philosopher on his Johnson grass farm on Route One considers the strike situation this week.

Dear editor:

According to all the newspapers I've seen out here lately, everybody is in a general turmoil over strikes and what to do about them, and I'll get to that later, but first I'd like to point out that things are not all bad.

For instance, when a neighbor asked me why I wasn't at work, I told him I keep up with the news and was fully aware everything was at a standstill on account of the New York mail strike. My hands were tied.

They were tied again when the air controllers fouled up the airplane schedules and by the time this gets into the Herald they may be tied by half a dozen other strikes. If I miss any, let me know.

However I realize everybody isn't as adaptable as I am to work stoppages and I notice that the politicians across the country are attacking the problem from every angle you can manage with a speech without ever getting around to an answer.

I have thought the problem over carefully and have a suggestion.

Like things are now, nobody knows when the next strike will break out. Nobody knows in the morning whether his entire activities will be paralyzed by nightfall. If the airlines aren't struck, it could be the post office, the trucking industry, the railroads, the tractor companies,

Friday at McMurry College in Abilene. This is the boys' District meet. The girls next meet will be next Tuesday in Albany, this is their District meet also. Good Luck teams! Both teams are coached by Jasper Wilson.

Singers' Reunion

right in the middle of the season, baseball itself.

Therefore it seems to me what Congress ought to do is establish a National Strike Week. Set aside one week out of the year, probably in the spring when the sap is rising, when everybody who's going to strike, strikes.

During that week everybody ought to throw his hat in the air and quit, and the last one off the job is a rotten egg.

Yours faithfully,
J. A.

METHODIST CHURCH**

CONCERT BY THE WESLEY BOYDS WILL BE THURSDAY, APR. 16 AT 7 P.M.

It never needs oil.

So what if your phone never needs oil? Neither do most other household appliances and services.

But what about costs when repairs are needed? Southwestern Bell makes house calls, and there's no extra charge for repair service.

We may be the only phone company in town, but we try not to act like it.
